Profession: Database developer and IT consultant

#### Professional History:

26 years with the Santa Clara Police Department. Retired as a Lieutenant in 2003. From 2003 - 2012 IT Manager for Santa Clara Police Department. During my time with Santa Clara I became a Filemaker Pro developer and have my programs running in numerous Bay Area Police Departments and Stanford University.

#### Tell why you are interested in serving on this commission or committee:

My database skills would be an asset when reviewing new programs for the City. I have also had some experience setting up a VoIP phone system for a small commercial office. My background for troubleshooting problems was why Santa Clara Police kept me employed for nine years after I retired. I feel these qualifications would bring another aspect for the Commission as they move towards bringing the City to a higher technology level. Also as a member of the Planning Commission I have become acquainted with numerous City employees and have established a good working relationship with them. This Commission would allow me to use my skills for betterment of the Community.
